INTEGRATION INSIGHTS FOR STUDENTS

A weekly series on all things integration

WHY INTEGRATION: Our shared vision is to expand high-quality educational opportunities for students, position institutions for growth, and meet regional economic and workforce needs across Pennsylvania. At a time when universities across the country, including our own, are financially challenged, integration would creatively ensure that its institutions are open, vibrant, and centered on student success.

- **PRESERVING YESTERDAY:** Preserving the founding principles of each campus and the communities we serve.
- **ADAPTING TO TODAY:** Answering the greatest challenges facing higher education: cost, quality, opportunity, and relevance.
- **BUILDING A STRONGER TOMORROW:** Changing the trajectory of public higher education in the Commonwealth.

FOCUS ON: ACADEMICS

Access a greater range of programs and faculty expertise than any single university can offer.

- Select from an expanded “menu” of academic programs, offering nearly double the program options for Lock Haven and Mansfield students.
- A typical student will take **most** in-person courses at their home campus and potentially some through real-time remote learning.

- General education courses will be offered at each campus.
 - Thank you to all students who completed the provosts' survey on integration. More information about the academic program array will be available soon.
-

STAY TUNED FOR NEXT WEEK'S INTEGRATION INSIGHTS.
