Campus Housing and Residency Requirement

Lock Haven University is committed to the academic success of all of our students, and we endorse the benefits of on-campus living as a requirement for students. Nationwide, students who live on-campus have better academic success with higher GPAs, higher completion rates of degrees, and have greater satisfaction with their academic experience compared to students who reside off campus.

At Lock Haven University, undergraduate class data proves that students who lived on campus had a 13% higher graduation rate than students who did not live on campus. In fact, students specifically stated living on campus helped them transition to University life and added to their educational experience. Student also said they felt safe living in the residence halls.

Living on campus affords students with opportunities that allow them to connect with others who are different from them as they gain life skills that will assist them in their success throughout their lifetime. Lock Haven University's commitment to the support and success of its students is demonstrated through the paraprofessional and professional staff members who live in the same building with all student residents. These individuals provide support and encouragement to students as well as strive to enforce safety and security measures in the halls.

Beginning with Fall 2021, students new to Lock Haven University will live on campus for their first four (4) regular semesters (excluding winter intersession, summer session, and dual enrollment program) unless they meet one of the following approved exemptions:

- Residing with parent(s) or legal guardian within the commuting distance of 35 miles from Lock Haven University
- Being 21 years of age or older before the first day of the fall semester
- Being married
- Having children

Those seeking an exemption will need to submit the Request for Exemption from Housing Requirement form during the housing selection process.
