PLEASE NOTE

- This check sheet of suggested course progression is a guide. Students must meet with their advisers each semester prior to registration for guidance on academic progress and course offerings. This is a hypothetical 4 semester map. It is not expected or likely that any student would take the courses required for the AA in exactly the above listed sequence.
- Graduation in two years requires that students enroll in and pass 15 new credits with the guidance of their academic adviser each semester.
- General education requirements dictate that students must take a MATH course above MATH100 or MATH009 to satisfy those requirements. Some students may be required to take a preparatory Math Course in order to be eligible for a MATH course that satisfies the general education requirement, which could cause them to graduate with more than the required 60 credits for the AA. MATH107 is strongly suggested as the selection.
- General education requirements dictate that students must take ENGL100. Some students may be required to take ENGL090 prior to ENGL100, which could cause them to graduate with more than the required 60 credits for the AA.
- Students select 9 credits (3 courses) of elective choice with guidance from their Academic Adviser. These credits may be taken in any semester and can include criminal justice and non-criminal justice courses. CRJS210: Diversity in Criminal Justice is strongly suggested as one of the electives.
